CORRECTION

On page 1279 of the paper "Evidence that a humoral agent stimulates the adrenal cortex to secrete aldosterone in experimental secondary hyperaldosteronism" by N. A. Yankopoulos, J. O. Davis, B. Kliman and R. E. Peterson (*J. clin. Invest.* 1959, **38**, 1278), credit for the double isotope derivative method is incorrectly attributed. The double isotope derivative procedure for analysis of aldosterone was developed by Kliman and Peterson. An editorial error resulted in the insertion of Davis and Yankopoulos in the citation.
