

Lovett-Racke, A.E., J.L. Trotter, J. Lauber, P.J. Perrin, C.H. June, and M.K. Racke.
The Journal of Clinical Investigation. Volume 101, No. 4, February 1998.

Pages 725–730.

The editors regret that a note to be added in proof was omitted. The note should read as follows:

Since submitting this manuscript, we have become aware of a similar observation entitled “Expansion of autoreactive T cells in multiple sclerosis is independent of exogenous B7 costimulation,” by C. Scholz, K.J. Patton, D.E. Anderson, G.J. Freeman, and D.A. Hafler (1998. *J. Immunol.* 160:1532–1538).
