FEINBERG CARDIOVASCULAR RESEARCH INSTITUTE

The Feinberg Cardiovascular Research Institute at Northwestern University is recruiting full-time tenured or tenure-eligible scientists and physician-scientists (rank to be determined based upon qualifications). Preferred areas of research interest include but are not limited to: basic mechanisms of vascular and lymphatic development and maintenance, vascular research in cardiac, renal, ophthalmologic, or pulmonary disease, systems biology approaches to study the vasculature. Qualified applicants will have a PhD and/or MD degree. The primary responsibility of the position will be to develop a funded research program. Participation in the research or education missions of the Institute is also anticipated. The search will be ongoing until a suitable candidate is identified.

Interested candidates should forward a letter of application and curriculum vitae to: **Susan Quaggin, M.D. Professor & Director, Feinberg Cardiovascular Research Institute, Northwestern University Feinberg School of Medicine, 303 East Superior, Lurie 10-105, Chicago, IL 60611**, or via email to quaggin@northwestern.edu or swhite1@nmff.org.

**NORTHWESTERN
UNIVERSITY**

Northwestern is an Affirmative Action, Equal Opportunity Employer. Women and Minorities are encouraged to apply. Hiring is contingent upon eligibility to work in the United States.

Cancer Center Medical Director

The University of Toledo Medical Center is seeking a dynamic physician leader committed to service and patient care excellence, and clinical and research growth to be the Medical Director for the Eleanor N. Dana Cancer Center. The candidate must be board certified by ABIM in Medical Oncology, ABS in Surgical Oncology, ABR in Radiation Oncology, and/or ABOG in Gynecological Oncology. The successful candidate is expected to be able to lead a multi-disciplinary cancer center. He/she must have superior leadership/administrator skills and well-developed clinical and scientific interests. Priority will be given to candidates with current or previous NIH funding, although candidates will be considered if they have alternative funding for research. It is critically important that candidates have the ability to work in a multi-disciplinary environment and be able to effectively engage multiple members of the care team across departments, specialties, and with staff members representing various aspects of cancer care. Collaboration with Cancer Center and UPMC leadership on improving all aspects of cancer care is expected, as well as a commitment to quality assurance. Review of applications will begin on March 1, 2014 but the position will remain open until filled.

Please submit your curriculum vitae to <https://Jobs.utoledo.edu>.

The University has an institution-wide commitment to diversity, inclusion, and multiculturalism. Applications from women and minority candidates are strongly encouraged. The University of Toledo offers a competitive salary and excellent benefits, and is proudly an Equal Access, Equal Opportunity, and Affirmative Action Employer.
