
CORRECTION

In the paper by Gold, Singleton, Macfarlane and Moore entitled “Quantitative Determination of the Urinary Cortisol Metabolites, ‘Tetrahydro F,’ ‘Allo-Tetrahydro F’ and ‘Tetrahydro E’: Effects of Adrenocorticotropic and Complex Trauma in the Human” in Volume 37, Pages 813 and 822. The chemical name for cortisol should be $11\beta,17\alpha,21$ trihydroxy $\Delta^4$pregnene-3,20-dione, rather than $11\beta,17\alpha,21$ trihydroxy-pregnane-3,20-dione; and that for cortisone should be $17\alpha,21$ dihydroxy $\Delta^4$ pregnene-3,11,20-trione, rather than $17\alpha,21$ dihydroxy-pregnane-3,11,20 trione.
