#### ERRATUM

In the paper entitled, "On the Concentrating Defect in Cirrhosis of the Liver," by Hershel Jick, Donald E. Kamm, Julian G. Snyder, Robert S. Morrison, and Thomas C. Chalmers, published in the February issue (p. 258), the following corrections should be noted: On page 259 and in the last column of Tables III and IV, the percentage of urea per nonurea solute should read *percentage of urea per total solute excretion*. The last column of numbers in Table III, beginning with Patient 1, should be 44, 65, 55, 29, 45, 68, 20, 43, 19, 65, and 47.
