# Meet The Family

MICRO . . . FAST . . . DEPENDABLE . . . OBSOLESCENCE-FREE, MODULAR DESIGN instruments that pipette, dilute, dispense, read, count. And with greater precision and reproducibility than other comparable instruments.

**All Micromedic Systems liquid delivery instruments offer: ■**

- Repeatability of 0.5% C.V. or better.
- Continuous micrometer volume adjustment from 0 to 100% of pump capacity.

**Automated Pipetting Station ■**

- Eliminates manual effort in RIA.
- Offers exclusive Slurry Dispenser that automates separations using charcoal and other slurries.

**MS 2 Spectrophotometer ▲**

- Twin 17 ul cuvettes.
- Two seconds from feed to read.
- Stable: drift less than 0.001A per day.
- Repeatable:  $\pm 0.001A$  or better.

**Automatic Gamma Counter ●**

- Eliminates tube handling by using standard MSI racks.
- 588-tube capacity.
- Multiple-user operation: each of 3 trays can be independently programmed . . . even for isotope selection.
- Automatic shutdown.
- Interruption of automatic mode for manual counting without loss of index.
