*The Journal of Clinical Investigation*. Volume 89, No. 2, February 1992.

Page 681.

The text in the right-hand column, lines 31–34, should read:

For quantitation of the TCR  $V\beta$  and  $C\beta$  gene transcripts, PCR products were hybridized with the  $^{32}\text{P}$ -labeled PstI fragment of the JUR- $\beta 2$  gene (9) ( $C\beta$ ) and the intensities of the autoradiographic bands were quantitated by densitometer (Fujix BAS 2000; Fujifilm I&I Co.).
