Supplemental Figure 1. Early glucagon+ cells in the ectopic pancreatic bud of *Hes1*^{-/-}; *Ptf1a*^{cre/wt}; *ROSA26r* mice

The evaginated cells include *Ptf1a*-lineage-labeled cells and *Ptf1a*-lineage-negative early glucagon+ cells in the ectopic pancreatic bud in the distal stomach of *Hes1*^{-/-}; *Ptf1a*^{cre/wt}; *ROSA26r* mice at e11.5. St, stomach. Scale bars: 50 μ m.
