### **Retraction**

Original citation: *J Clin Invest.* 2007;**117**(11):3412–3420. doi:10.1172/JCI32738. Citation for this retraction: *J Clin Invest.* 2013;**123**(6):2752. doi:10.1172/JCI70657. It has come to our attention that some of the panels in Figure 5 appear to be duplications of each other. The authors are unable to provide the original source files that were used to generate these data. In the absence of the original data that verify the integrity of the images, the JCI Editorial Board has decided to withdraw Figure 5 from the scientific record. No issues have been raised in regard to any of the other data in this manuscript. The authors concur with this course of action.

## Retraction

### Parathyroid hormone inhibits renal phosphate transport by phosphorylation of serine 77 of sodium-hydrogen exchanger regulatory factor-1

Edward J. Weinman, Rajat S. Biswas, Quihong Peng, Lily Shen, Christina L. Turner, Xiaofei E, Deborah Steplock, Shirish Shenolikar, and Rochelle Cunningham

Original citation: *J Clin Invest*. 2007;117(11):3412-3420. doi:10.1172/JCI32738.

Citation for this retraction: *J Clin Invest*. 2013;123(6):2752. doi:10.1172/JCI70657.

It has come to our attention that some of the panels in Figure 5 appear to be duplications of each other. The authors are unable to provide the original source files that were used to generate these data. In the absence of the original data that verify the integrity of the images, the *JCI* Editorial Board has decided to withdraw Figure 5 from the scientific record. No issues have been raised in regard to any of the other data in this manuscript.

The authors concur with this course of action.

**The Albany Medical College Department of Surgery is seeking candidates for the position of Vice Chair for Research. The Vice Chair will be responsible for developing translational research programs across the department, in collaboration with the college's interdisciplinary research centers.**

**Requirements:** MD or PhD with an established record of competitive research funding at the ROI level or equivalent (e.g. NIH, CDC, VA). The successful applicant will be expected to develop and maintain an extramurally-funded research program emphasizing molecular and/or genetic approaches to problems relating to focus areas in surgical research. Collaboration is possible with the Department of Pathology, which maintains a large tumor bank with patient research cohorts. Candidates using animal models that mimic stages in human disease are particularly encouraged to apply. The Vice Chair for Research will have the opportunity to be affiliated with the Cancer Genomics Center at the State University of New York's East Campus. The Albany area is also home to Taconic Farms, Rensselaer Polytechnic Institute, the College of Nanoscale Science & Engineering at the University of Albany (SUNY), the New York State Department of Health Wadsworth Center for Research, and General Electric Health Care Research, all of which contribute significantly to the collaborative scientific research and translational environment in the Capital Region.

The associate professor/professor will serve as a principal investigator of their own research program, and lead the development of extramural research funding throughout the department.

Interested applicants should send a letter of interest, and a curriculum vitae by email to:

Steven C. Stain, MD, AMC Chair of Surgery c/o  
Kara Giglia at: gigliak@mail.amc.edu.
